

Be part of a new experience.
Start your new adventure with us!

You are looking for an employer who takes you to the next level. You want to work on a team which values your ideas. You want to participate in developing and creating the future of BBHT Solutions. Then join us as

Test Automation Engineer & Developer (f/m) in Cluj-Napoca, Romania

Your responsibilities

- scope, define and build highly scalable, performant and maintainable automated test scenarios
- define automation test frameworks and work with development and test tools used in our clients' projects
- develop automated tests and test processes using different test practices within distributed teams
- coordinate with business units & development teams as well as communicate test progress and results
- cooperative partnership & open communication with our clients abroad

Your qualifications

- a successfully completed university degree, ideally in computer science, mathematics, physics or comparable
- knowledge and experience in object-oriented programming languages (preferably Java, JavaScript)
- experience with development-related test tools such as JUnit, XUnit or similar
- good understanding of common test automation / management tools like Selenium, HP ALM/QC or similar
- proven technical and analytical experience in developing test frameworks, understanding test cases and testing
- experience with continuous integration and delivery
- fluent knowledge of German and willingness to travel to Germany
- ISTQB or other test related certifications are desirable but not mandatory

We offer you

- a permanent position and the chance to collectively develop the company itself
- independent work, challenging & innovative projects with renowned clients
- qualified and continuing education, joint trainings and company events
- good work-life balance by flexible working hours, overtime compensation through time off and 25 days of vacation
- home-office days and high quality, personal IT infrastructure

BBHT Solutions is an ambitious and with the help of our employees designed consultancy with its office in Cluj-Napoca. As a consultancy we specialize in IT quality management, quality assurance and software testing.
