

Join the team.  
Make a difference.

You are looking for an employer who takes you to the next level. You want to work on a team which values your ideas. You want to participate in developing and creating the future of BBHT Solutions. Then join us as

## Junior Test Automation Engineer

### Your responsibilities

- consulting our clients' IT projects concerning quality assurance and business processes
- developing and taking over test processes with the challenge of distributed teams
- design and preparation of test cases, test specification, test automation and testing
- coordinating with business units & development teams as well as communicating test progress and results
- cooperative partnership & open communication with our clients abroad

### Your qualifications

- a successfully completed university degree, ideally in business information, computer science, economics, mathematics or comparable
- fluent knowledge of German, a communicative and independent personality
- at least one year of experience in manual testing
- experience with JavaScript is desirable but not mandatory
- experience within IT projects in the banking or insurance industry is desirable but not mandatory

### We offer you

- comprehensive training in test automation designed for individuals new to this field
- a full-time position and the chance to collectively develop the company itself
- independent work, challenging & innovative projects with renowned clients
- qualified and continuing education, joint trainings and company events
- good work-life balance by flexible working hours and 25 days of vacation
- remote or hybrid work and high quality, personal IT infrastructure

Operating in the German market, our company collaborates with clients to develop software solutions and deliver quality assurance services for various projects, with a primary emphasis on the banking and insurance sectors. Our objective is to cultivate a team of highly motivated professionals who can work together to tackle new challenges with innovation and success.
